FILIsnack cut 'n' cool

All-in-one solution for in-store snack production

The new FILIsnack cut 'n' cool combines all important process steps in the production of sandwich and snacks in a minimum of space. It has been developed for one-person operation in stores or central production. Cutting the baked goods, topping them and preparing them directly for display in the sales counter: The FILIsnack is designed for the further processing of rolls, baguettes, bagels, small flat breads, etc. in the store.

Vorteile:

- one-person operation
- centralized
- all-in-one solution
- integrated raw material cooling
- hygienic design
- fast production of ready-to-sell snacks
